

## Installing MEGA

1. Visit <https://www.megasoftware.net/>
2. Select the configurations of your laptop/computer
3. Click DOWNLOAD
4. ACCEPT the User Agreement. Then mega will ask you basic information.

The screenshot shows a web form for basic user information. It includes fields for 'Country' (with a dropdown menu), 'What kind of institution is ?' (with a dropdown menu set to 'Airtel'), and two sections of checkboxes. The first section, 'I am a...', includes options like Researcher, Instructor, Student, Professor, and Other (with a text input field). The second section, 'It is a...', includes options like University/College, Research Institute, Industry, Government, and Other (with a text input field). At the bottom is a large green button labeled 'DOWNLOAD' with a circular arrow icon.
